June, 2017

Welcome to another season on this very special island we call home.

It is a delight to extend to you an invitation to the “sunrise side” of the island, to enjoy all that Mission Point has to offer. Now in my sixth season (third under MPR ownership by the Ware Family), I am pleased to say that our journey of ongoing transformation, making constant improvements to the property and service levels, while creating unique, new guest experiences, continues to gain momentum. From an expanded Lakeside Spa & Salon, to a wonderful collection of clothing and gifts in our Boutique, to our food and beverage offerings, to our unmatched gardens and lawns, Mission Point has never been better.

Executive Chef Gabriel Vera and I spent the winter perfecting menus and planning this season’s program. Favorites of mine for this year are our made-from-scratch croissants, our classic house-made lemon bars, and our fresh pastas. There are actually so many exciting offerings that I can’t fit them all in here, but I did want to share more information on two key things:

We are particularly pleased to have begun an a la carte brunch menu in Chianti from 9:00 AM to 1:00 PM on Saturdays and Sundays, with such delights as smoked whitefish hash with poached eggs and tomato cacciatore. Weekend brunch at Chianti is sure to become a favorite for all.

Also new is “Reserve, a Tasting Room”, an intimate café, located at the street level, just beyond Circle Drive, featuring not only our Mission Point wines, but also curated vintages from France, Italy and California, and an assortment of charcuterie, cured meats, artisan cheeses, pickled vegetables and house-made chocolates, and as of June 15, barrel-aged Negroni and Manhattan cocktails. It’s a delightful hideaway, just off Main Street, overlooking the great lawn and lake.

It would be our privilege to welcome you to Mission Point. We look forward to seeing you, and exceeding your expectations. Striving for excellence in the elements of hospitality (simple comfort, delicious food and genuine welcome) while continuously adding more unique and interesting experiences, is redefining who we are and what we do.

Sincerely,

W. Bradley McCallum
