Stella Hotel to Open 2017
BRYAN-COLLEGE STATION
— The Stella, a modern new

lifestyle property unique to Bryan-College Station, will open in March 2017. Located at the epicenter of the Texas A&M Biocorridor, The Stella will include 176 guest rooms and 10,000 square feet of indoor meeting and event space, as well as an additional 12,000 square feet of outdoor meeting space, dubbed The Backyard, due to the grassy lawn and expansive views it offers. The restaurant, Campfire, will offer a variety of breakfast, lunch and dinner options daily, while the Watershed will serve as The Stella's comfortable and casual pool-side bar, complemented by private cabanas and welcoming lounge chairs. ■
