

The Best New Hotels To Visit In 2016

Zemi Beach, Anguilla

Zemi Beach in Anguilla is the Caribbean's hottest new property and if you're looking for some **winter sun** in style, look no further. It sits on white/pink sands of Shoal Bay looking out over the island's turquoise waters. Here you can be as active (swimming, snorkelling, stand-up paddle boarding and kayaking) or relaxed (there's a spa and meditation garden) as you like. Pick an ocean view room with their deep soaking tubs and furnished balconies or go for a suite with a rooftop terrace and private pool. Don't miss a beach located romantic dinner for toes in the sand dining, the market place for picnic baskets or the Rhum Room for small-batch rums.
